62 **YOU JUST CAN'T BEAT IRIS--** [1960]

**THEY'RE COLORFUL, DEPENDABLE, EASY TO GROW!**

P.O. BOX 3233  
LOS ANGELES 54, CALIFORNIA

LIBRARY  
U.S. DEPARTMENT OF AGRICULTURE  
WASHINGTON 25 D.C.

A large, vibrant purple iris with deep magenta and dark purple variegation on its petals.

PAGAN PRINCESS

A large, pure white iris with a yellow center and dark, almost black, sepals.

CAHOKIA

A large, rich copper-brown iris with a yellow center and dark, almost black, sepals.

COPPER MEDALLION

A large, bright yellow iris with a yellow center and dark, almost black, sepals.

SPOTLIGHT

## RAINBOW COLLECTION

OF GIANT IRIS

### Treat your garden to Today's Modern Iris

No perennial offers as wide a range of colors, rivaling the rainbow in every imaginable hue and tone, as these modern iris. As easy to grow as the old purple and white varieties they are a revelation to anyone seeing them for the first time. Imagine blooms up to 6-7" on stems 3 to 4 feet tall. You will be amazed at their beauty, their ability to be "at home" in every climate and in all types of soil. Easily grown, without special culture, in any sunny location.

**Offer 60-1** Spotlight, Pagan Princess, Cahokia, Copper Medallion, Oriental Glory . . . \$4.00

**Offer 60-2** Black Diamond, Orelia, Mulberry Rose, Spanish Peaks, Moonlight Sonata . . . \$4.00

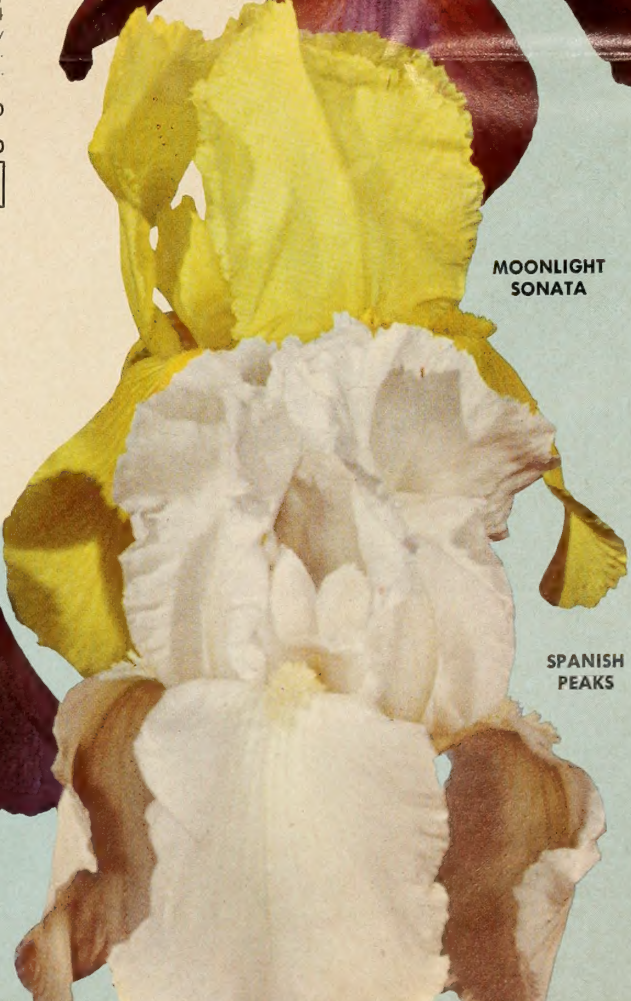

**Offer 60-3** **\$7.50**  
ALL 10 RAINBOW varieties pictured above

A large, deep black iris with a yellow center and dark, almost black, sepals.

MOONLIGHT SONATA

A large, pure white iris with a yellow center and dark, almost black, sepals.

SPANISH PEAKS

A large, deep red iris with a yellow center and dark, almost black, sepals.

ORELIO

A large, deep purple iris with a yellow center and dark, almost black, sepals.

MULBERRY ROSE

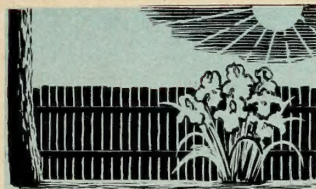

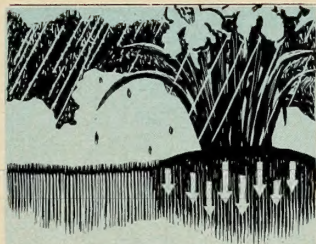

# from the *Bulb Basket of the Nation...*

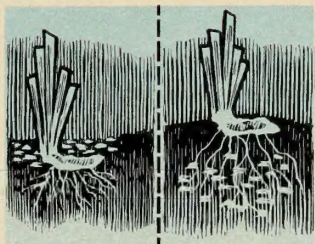

Our Iris growing fields . . . located in the beautiful Willamette valley of Oregon, right in the foothills of the lofty Cascade mountains with the summer sun and the rich volcanic soil which produces the finest iris roots known. Full, plump, and packed with vigor. From this valley, known for its bulb production, we ship only the very best of the crop. These plants are sent direct to you from the growing fields to assure your garden fresh, top quality iris.

Iris are sun loving, plant in half day's sunshine or more.

Provide ample drainage, well drained soil, raised beds.

Plant rhizome just below surface (right), not too deep (left).

Trim off old drying foliage periodically.

Divide and reset when clumps get matted, 4-5 years.

TOP FLIGHT

TEANECK, NEW JERSEY

As a novice in gardening I am inclined to en-  
thuse over almost anything that grows and  
blooms . . . especially for me. Yet if I could  
have but one kind of flower in my garden, it  
would be Iris.

Like most city dwellers I thought Iris were  
either blue, yellow or white . . . period. Since  
then I have never ceased to marvel at the  
countless variations in form, color and size  
presented by this single (and singular) mem-  
ber of the flower kingdom. My biggest thrill  
came this past spring when some of these  
modern Iris beauties blossomed for the first  
time in our garden.

MYSTIC MELODY

ACCENT

We paid \$\$\$ to purchase these new varieties, many sold for \$5.00 to \$10.00 and \$20.00 for a single root a few years ago. Due to liberal propagation we can sell these to you at just a few cents on the dollar for some of America's finest Iris.

## 4 DYKES MEDAL WINNERS

### Tops in the Iris World

If you are already an iris lover, or just a beginner, this will be big iris news to you. **NOW**, for the first time, these four winners of the Dykes Medal—highest award an iris can win—are offered at these prices. These varieties are the cream of the crop, placing top in the popularity polls year after year. Each had to be adjudged the very finest single iris for the year to win this coveted award. Only one such award is given a year, so these are the very top bracketed iris—your selection could not be better.

### PEACOCK IRIS

3 Spectacular Beauties

What proud beauties these dramatically colored iris are. There is something about their combination of colors with deeper peacock eye of color in their lower petals, that mark these as unexcelled garden subjects. As they "strut their stuff" and draw admiring attention, you will find it hard to choose your special favorite because they are all so beautiful!

Offer 60-7  
3 PEACOCK IRIS..... \$4.75

These Modern Iris, pictured greatly reduced... Actual size, 6 to 8 inches for a single bloom!

### IRIS TIME

The beauty of new iris varieties is as fragile and amorphous as that of orchids, but their hardiness is that of the winter-defying crocus. Step from your back door into a beautiful garden in the early morning when the dewy blooms are radiant with the first kiss of the sun and it will set your heart tingling. Whether you plant your iris in a border, or along your driveway or lot line or set colorful clumps against low growing shrubs, you will find that iris will give you a lasting thrill; they are one of the least demanding and most rewarding flowers. No digging or staking, drying or fuss each year. In what seems like no time at all a single root becomes a breath-taking clump.

### WHY IRIS?

Iris fit ideally in the garden picture today because modern gardeners, pressed for time, want a maximum of beauty with a minimum of care. Unrivaled as landscape subjects, they create soul-stirring drifts of color. Iris upon close inspection remind one of the orchid in the subtlety of beauty, they have been called the poor-man's orchid. Where else would you find such frost, shimmering textures, such changeable-silk iridescence, such luminous metallic tones? The unequalled graceful form of the iris blooms differs completely from anything in the floral kingdom, and with their artistic candelabrum branching, bearing as many as 8 to 10 flowers per stem, and their regal carriage they have immense appeal to the connoisseur of floral beauty. They give so much for so little care. Remember the ink necessary to illustrate these flowers is not half as intense or vibrant as the flowers themselves. And their size is breath-taking. You have to see them yourself to believe it. Hardly a garden exists which does not include some iris—but few gardeners have these finer varieties.
